### A Level Economics

A big part of Economics is knowing and understanding what is happening economically in both the UK and countries around the world. Reading the news on a regular basis will help to develop this knowledge and understanding. Please can you download the BBC news app onto your phones.

We would like you to choose a news article every week that links to economics. This could be anything linked to: Employment figures, interest rates, tax, government spending. If you have access to a computer, copy the article onto a word document and then underneath in your own words give an outline of what this document is about/explaining. If you do not have access to a computer this can be done on paper.
